Pilchuck Glass School, Stanwood, Washington, 1983
BFA, University of Minnesota, Minneapolis, 1980
Washington University, St. Louis, Missouri, 1979

The spiral form is used as a symbol of both introspection and continual growth. This would be a user/viewer interactive piece. The waterfall at the terminus of the spiral would produce a calming sound that would echo gently through the space. The spiral form could also be seen from any upper floor windows facing the work.

SCULPTURE PROPOSED FOR:
